Metadata Based Pad Ring and Pad Multiplexing Generation for Microcontroller Design  
A. K. Morita, R. Takiguti and W. A. M. Van Noije

Efficient IR Drop Analysis and Alleviation Methodologies Using Dual Threshold Voltages with Gate Resizing Techniques  
C.-H. Cheng

Negative High Voltage DC-DC Converter Using a New Cross-Coupled Structure  
J. Zhao, K. K. Kim and Y.-B. Kim

Direct Observation of Crystal Facet Transformation During Gold-Tin Alloy Electroplating  
Z. Chiang

A Synthesizable BCH Decoder For DVB-S2 Satellite Communications  
C. G. Chaves, E. R. de Lima and J. G. Mertes

A Simulation Methodology for Wirebonds Interconnects of Radiofrequency Integrated Circuits  
H. M. Cavalcanti and L. T. Manera

A Novel Built-in Self Calibration Technique to Minimize Capacitor Mismatch for 12-bit 32MS/s SAR ADC  
I. Jung, K. K. Kim and Y.-B. Kim

## **Manuscript Preparation:**

### *General:*

Editors reserve the right to adjust style to certain standards of uniformity. Original manuscripts are discarded one month after publication unless the Publisher is asked to return original material after use. Please use Word or Word Perfect files for the text of your manuscript.

### *Structure:*

We suggest following this order when typing manuscripts: Title, Authors, Affiliations, Abstract, Keywords, Main text, Acknowledgements, Appendix, References, Figure Captions and then Tables. Please supply figures imported into the text AND also separately as original graphics files. Collate acknowledgements in a separate section at the end of the article and do not include them on the title page, as a footnote to the title or otherwise.

### *Text Layout:*

The manuscript must be typed using double spacing and wide A4 paper (3 cm) margins (Top, Bottom, Left, Right) with 12 pt Times New Roman font size up to 18 pages (maximum). Present tables and figure legends on separate pages at the end of the manuscript. All the manuscript pages must be numbered consecutively.

### *Abstract:*

A self-contained abstract outlining in a single paragraph the aims, scope and conclusions of the paper must be supplied.

### *Keywords:*

Immediately after the abstract, please provide a maximum of six keywords (avoid, for example, 'and', 'of'). Be sparing with abbreviations: only abbreviations firmly established in the field may be eligible.

### *Symbols:*

As there is considerable variation in nomenclature and unit systems from country to country, authors are required to include a list of symbols, which they have used in their manuscripts, and of the units in which the corresponding qualities are measured. Another possibility is to define the symbols along the manuscript. SI units should be used where possible.

### *Units:*

Follow internationally accepted rules and conventions: use the international system of units (SI). If other quantities are mentioned, give their equivalent in SI.

### *Maths:*

Number consecutively any equations that have to be displayed separately from the text (if referred to explicitly in the text).

### *References:*

All publications cited in the text should be presented in a list of references following the text of the manuscript. Along the text, indicate references by number(s) in square brackets in line with the text.

**The papers are submitted online following the link [www.sbmicro.org.br/jics](http://www.sbmicro.org.br/jics).**

**After acceptance, the author will be notified about the final paper format to be submitted for printing.**
